1 Search Demand Analysis

KEYWORD	MONTHLY VOLUME	CPC RANGE	INTENT
plotly	12,100	$2.26 - $7.75	Branded
data visualization platform	1,000	$6.73 - $22.20	High Intent
python dashboard	720	$1.87 - $14.38	Category
dash enterprise	320	$23.00 - $225.59	High Intent

2 Key Insights

Exceptional Brand Dominance

12,100 monthly searches for "plotly" is outstanding brand awareness in the data viz space. This is a significant competitive moat — protect it with defensive campaigns and capitalize with brand-adjacent terms.

Dash Enterprise = Premium Enterprise Buyers

"Dash enterprise" at $225 high bid is exceptional. 320 monthly searches at this CPC signals serious enterprise evaluation. These are IT leaders with 6-figure budgets actively seeking solutions.

Python Dashboard = Developer Ecosystem

720 monthly searches for "python dashboard" represents the developer/data scientist audience discovering Plotly. Lower CPCs make this an efficient awareness play to build the Dash funnel.

3 The Opportunity

Search + LinkedIn = Full-Funnel Capture

14,100+ monthly searches with **$23-226 enterprise CPCs** on Dash terms signal serious enterprise buyers. Combined with **21,000 LinkedIn data leaders** in your ICP, Plotly has a massive demand capture opportunity. The brand search volume alone (12K/mo) is a competitive moat few companies have.
